Air 1 is the local christan chanel that the young people listen to it is encouraging and uplifting and a good opption for them too, instead of the secular music and worldly advice. It is helping in bringing them sound advice and it is something they will

listen to that you can depend on them getting good advice. Air 1 will help to make them better citizens Please dont make it where

Air 1 wont be able to aford to stay on the air and leave no good alternative music for the youth of tomorow. Thank you.
